

# We specialise in shading so that you don't have to

## Project

Modern offices built behind an Edwardian facade in central London included a large curved area that Shading was required to follow the curve, allow visibility and retract fully when not required. Initial research to find a solution elsewhere was unsuccessful

## Solution

Large roman style blinds made using Endurascreen material for visibility, manufactured to follow curve, side channels powder coated to match glazing structure

## Specification

Endurashade SPS – Sun Protection system blinds made using Endurascreen material. 85% screening,
